**Einverständniserklärung zu dem Tempus Projekt „Ecological Education for Russia and the Ukraine (EcoRU)**

Dear Professor Spottl,

we inform you on the consent to participate in coordination of the project which will be carried out by you in common with Saint Petersburg State University of Transport, Lipetsk State Technical University, Magnitogorsk State Technical University, Rostow State University of Civil Engineering and three universities from the Ukraine.

Our primary goal within the framework of the given project is a curricula development quality assurance by Russian federal curriculum construction rules, which is the precondition for a recognition of new bachelor and master programmes in the field of technical and environmental education. We are also ready to take part in activities of working groups to form a structure and an estimation of the academic results of realization of such programmes. In addition we will help to forward introduction and to promote dissemination of the results achieved within the framework of the given activities among Russian universities.

Responsible contact person will be Head of Department Oleg Isaev (tel. +7-495-2379391, fax 7-495-2370334).

As a result of the realization of the given project we expect a reception of organizational and methodical basics for educational programmes formation, build upon use of Bologna process recommendations at the Russian technical universities. It is necessary to note, that active interaction of Russian and European universities will provide better information and harmonization of the European educational space.

All the above-mention is not financially binding on the Federal Agency on Education.

Sincerely Yours,

Head of International Education and  
Cooperation Division

N.Dmitriev
